About Us

How BCW Begin?

BabiesClothesWholesale was born in 2015. It used to be a factory where several certain styles were produced. We took ourselves as only manufacturers. The difference happened when a customer who ordered from us asked us why we didn't sell other styles of baby clothing, from newborn to kids, so he didn't need to find other suppliers to get more styles. At that time, our team decided to help our customers collect all hot sale baby and kids clothes. We explore our products from only baby rompers to baby gear and kids clothing. Now we almost cover all relative categories about baby and kids clothing. In 2019, because Covid-19 affected the whole world, many customers couldn't come to our warehouse or placed order physically. We open an online website so that customers overseas can still order from us. BCW now has more than 100,000 customers. We ship to America, United Kingdom, Canada, Mexico, Australia, Europe countries, Asian countries and so on. Thank you for your support. It is our honor that we can see our clothing sold on Montenegro, Ethiopia and many places in the world.

Our goal is to help small business owners in the baby clothing industry boost their sales by offering good products, good prices, good service.
